Forecast for Wednesday 16 Dec 2020

Weather: Widespread heavy rain soon extending north in the morning, this briefly preceded by snow down to 800 metres at first, although snow soon turning to rain at all levels before it clears away by the end of the morning . Then the afternoon will much drier but cloudy, although some further spells of rain developing across Skye and Lochaber. The evening will see spell of rain more widely, and this turning to snow down to 1000 metres.

Chance of cloud free mountain/hill tops above 800m: Extensive cloud expected down to 600 metres for much of the day, some breaks possible towards the Great Glen and north of Assynt in the afternoon, especially in the more sheltered northeast.

Visibility: Very poor in snow with whiteout conditions expected for a while. Improving mostly good outside of cloud cover and rain in the afternoon.
